

Wire3 Go-To-Market Plan

Run: run-20260921-121832 | Brief: R001-Wire3-Ocala-0921 | Generated: 2026-09-21 16:26 UTC | Sources cited: 61

Academic strategy exercise for the capstone: recommendations are illustrative and grounded in public evidence, not Wire3's actual go-to-market plan. How to read citations: bracketed EV- ids are sources (Appendix B, with links); THEME-, SWOT-, ASM- and UNK- ids are analyst findings (Appendix A); [inference] marks judgment with no direct source and [brief] marks a fact given in the project brief.

1. Executive summary

Target: Residential price/value switchers currently on a competitor in Ocala, FL / Marion County, FL.

Value proposition: Ocala's local fiber alternative: predictable pricing, multi-gig reliability, and fast local support. [THEME-3, THEME-1, THEME-5]

Positioning: Wire3 is Ocala's locally built fiber provider offering multi-gig symmetric speeds, transparent launch pricing, and rapid local support—an alternative to incumbent bundle-driven offers. [THEME-3, THEME-1, SWOT-S1, SWOT-W1]

The plan recommends 5 channels (Targeted digital search & social ads (promo-focused), Local SEO, availability landing pages & organic social, Local events, community PR and direct mail, Streaming partner credits & local partnerships, Customer referral & installer-led door campaigns), 3 launch phases and 4 success metrics, and lists 3 risks and 3 follow-up research questions.

2. Research scope and evidence

16 planned research calls returned 474 evidence records retrieved 2026-09-21. Research questions:

- **RQ1:** What is each competitor's actual serviceable footprint and advertised speed tiers in Ocala/Marion County specifically?
- **RQ2:** What are current standalone and bundled pricing tiers, promo rates, and post-promo rates for each competitor?
- **RQ3:** What early-termination fees, equipment/rental fees, and other recurring surcharges does each competitor charge?
- **RQ4:** What documented triggers cause residential customers to switch ISPs (promo-cliff bill shock, reliability, customer service, moving)?
- **RQ5:** How much does a bundled mobile plan influence purchase decisions for price/value switchers specifically?
- **RQ6:** What do verified customer reviews/complaints say about each competitor's pain points, prioritizing Ocala/central-FL sources?
- **RQ7:** How have other regional fiber ISPs without a mobile bundle positioned and priced against national cable/wireless incumbents?

- **RQ8:** What marketing channels are effective and cost-appropriate for a low-brand-recognition regional ISP in a mid-size FL market?
- Evidence quality: 61 distinct sources are cited in the analysis (community: 25, company: 36). 59% are primary, company or analyst sources against a target of 80% (not met).
- Numbers marked as evidence but not found in the cited text: 1.
- Invented evidence ids removed from the analysis: 1.
- Themes whose research-question links were recomputed from their evidence: 5.
- Research-question coverage: every question with evidence is backed by at least 6 distinct cited source(s); the thinnest is RQ5.

3. Competitor comparison

Wire3

- **Footprint confirmed in region:** Yes [EV-d94963c8, EV-da49655b]
- **Service type:** fiber [EV-d94963c8, EV-d1118463]
- **Has mobile bundle available:** No [brief]
- **Top advertised speed mbps down:** 10000 [EV-d1118463, EV-37a93029]
- **Top advertised speed mbps up:** 10000 [EV-d1118463]
- **Summary note:** Wire3 is actively expanding into Marion County (Ocala) and markets fiber tiers from 250 Mbps up to 10 Gbps with streaming bundle promotions and included eero Wi-Fi devices. [EV-d94963c8, EV-d1118463, EV-33d161e7, EV-fe02126f]

Spectrum

- **Footprint confirmed in region:** Yes [EV-56997533, EV-3c7ea88d]
- **Service type:** cable [EV-31d73084, EV-6fcc7888]
- **Has mobile bundle available:** Yes [EV-33618605, EV-59451b96]
- **Top advertised speed mbps down:** 7000 [EV-31d73084, EV-224bf455]
- **Top advertised speed mbps up:** 7000 [EV-31d73084]
- **Summary note:** Spectrum (Charter) advertises wide availability in Marion County with multi-gig tiers, promotional first-year pricing, and bundles that include mobile and TV services. [EV-56997533, EV-31d73084, EV-acea4159]

AT&T

- **Footprint confirmed in region:** Yes [EV-26834797, EV-6016b158]
- **Service type:** fiber [EV-91207f04, EV-6016b158]
- **Has mobile bundle available:** Yes [EV-bf5f8187, EV-3ccb3abd]
- **Top advertised speed mbps down:** 5000 [EV-26834797, EV-6016b158]
- **Top advertised speed mbps up:** 5000 [EV-6016b158]
- **Summary note:** AT&T offers fiber and fixed-wireless options in the region, markets up to multi-gig speeds (e.g., up to 5,000 Mbps reported in Ocala listings), and promotes first-year fiber pricing on some offers. [EV-91207f04, EV-26834797, EV-3ccb3abd]

T-Mobile Home Internet

- **Footprint confirmed in region:** Yes [EV-ab4afe18, EV-87cea105]
- **Service type:** fixed_wireless [EV-ab4afe18, EV-3a643017]
- **Has mobile bundle available:** Yes [EV-3a643017, EV-944ad5f5]
- **Top advertised speed mbps down:** 2000 [EV-87cea105, EV-7b85fa9b]
- **Top advertised speed mbps up:** 2000 [EV-7b85fa9b]
- **Summary note:** T-Mobile sells 5G Home Internet widely and is expanding fiber in select markets; plans range from low-cost fixed-wireless tiers to higher-tier amplified/all-in packages with upgraded gateways. [EV-a89f66b2, EV-3a643017, EV-e2957665]

4. Product and feature comparison

Wire3

- **Technology type:** fiber [EV-d94963c8, EV-d1118463]
- **Symmetric speeds:** Yes [EV-d1118463]
- **Data cap present:** No [EV-d1118463, EV-fe02126f]
- **Wifi router included:** Yes [EV-33d161e7, EV-d7118dd5]
- **Professional install included:** Yes [EV-fe02126f, EV-fc020f49]
- **Self install available:** Yes [EV-d1118463]
- **Contract required:** No [EV-89785427, EV-019b25db]
- **Contract length months:** n/a [EV-019b25db]
- **Customer support channels:** phone, online portal, local field technicians [EV-d94963c8, EV-267cec38, EV-beca7d7f]
- **Additional features:**
- **Name:** Enhanced Wi-Fi (eero)
- **Field:** Free eero device included with all plans [EV-33d161e7, EV-d7118dd5]
- **Name:** Total Connect support tiers
- **Field:** Two tiers for ongoing support and security (Total Connect Premium referenced) [EV-33d161e7]

Spectrum

- **Technology type:** cable [EV-31d73084, EV-6fcc7888]
- **Symmetric speeds:** No [EV-31d73084]
- **Data cap present:** No [EV-224bf455]
- **Wifi router included:** Yes [EV-31d73084]
- **Professional install included:** No [EV-58fa6c25]
- **Self install available:** Yes [EV-31d73084]
- **Contract required:** No [EV-224bf455]
- **Contract length months:** n/a [EV-224bf455]
- **Customer support channels:** phone, app, in-store [EV-59451b96, EV-31d73084]
- **Additional features:**
- **Name:** Spectrum TV App

- **Field:** Access to Spectrum TV App and bundled app savings [EV-f228abb9, EV-acea4159]
- **Name:** Spectrum Mobile bundle
- **Field:** Mobile plans and first-line free offers tied to Internet bundles [EV-33618605, EV-33618605]

AT&T

- **Technology type:** fiber [EV-91207f04, EV-6016b158]
- **Symmetric speeds:** Yes [EV-6016b158]
- **Data cap present:** No [EV-a24cf7a2, EV-3ccb3abd]
- **Wifi router included:** Yes [EV-91207f04]
- **Professional install included:** Yes [EV-91207f04]
- **Self install available:** Yes [EV-91207f04]
- **Contract required:** No [EV-91207f04]
- **Contract length months:** n/a [EV-91207f04]
- **Customer support channels:** phone, retail stores, online portal [EV-bf5f8187, EV-816a1331]
- **Additional features:**
- **Name:** Hotspot allowances
- **Field:** Unlimited plans include hotspot allowances varying by tier (e.g., 250GB on top tiers) [EV-816a1331, EV-9f736c31]

T-Mobile Home Internet

- **Technology type:** fixed_wireless [EV-ab4afe18, EV-3a643017]
- **Symmetric speeds:** No [EV-6e011fda, EV-3c64333d]
- **Data cap present:** No [EV-3a643017, EV-944ad5f5]
- **Wifi router included:** Yes [EV-3a643017, EV-e2957665]
- **Professional install included:** No [EV-4f866997]
- **Self install available:** Yes [EV-4f866997, EV-89076a03]
- **Contract required:** No [EV-944ad5f5]
- **Contract length months:** n/a [EV-944ad5f5]
- **Customer support channels:** phone, online community, in-app troubleshooting [EV-3a643017, EV-cee4b200]
- **Additional features:**
- **Name:** Price Lock and rebates
- **Field:** Price Lock guarantees and virtual prepaid card rebates (up to \$300) for digital activations [EV-944ad5f5, EV-bd997613]
- **Name:** Upgraded gateways
- **Field:** Higher-tier plans include upgraded gateways (Wi-Fi 7 referenced) [EV-e2957665, EV-0d3027da]

5. Pricing matrix

Spectrum: Spectrum Internet® 1 Gig (promo)

- **Speed mbps down:** 1000 [EV-31d73084]
- **Promo status:** has_promo [EV-31d73084, EV-58fa6c25]
- **Promo price usd per month:** 60 [EV-31d73084]
- **Promo duration months:** 12 [EV-31d73084]
- **Post promo price usd per month:** 100 [EV-2dfb031f, EV-31d73084]
- **Blended 12mo effective price usd:** 60.0 [EV-31d73084, EV-2dfb031f, EV-58fa6c25]
(computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

AT&T: AT&T Fiber 1 Gig (first-year promo)

- **Speed mbps down:** 1000 [EV-91207f04]
- **Promo status:** has_promo [EV-91207f04]
- **Promo price usd per month:** 50 [EV-91207f04]
- **Promo duration months:** 12 [EV-91207f04]
- **Post promo price usd per month:** 90 [EV-2c5212c0]
- **Blended 12mo effective price usd:** 50.0 [EV-91207f04, EV-2c5212c0] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

T-Mobile Home Internet: Rely Home Internet (AutoPay & voice discount)

- **Speed mbps down:** 354 [EV-a89f66b2]
- **Promo status:** has_promo [EV-89076a03, EV-a89f66b2]
- **Promo price usd per month:** 35 [EV-a89f66b2]
- **Promo duration months:** 1 [inference]
- **Post promo price usd per month:** 35 [EV-a89f66b2, EV-89076a03]
- **Blended 12mo effective price usd:** 35.0 [EV-a89f66b2, EV-89076a03] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

6. Market themes

THEME-1: Promotional pricing and streaming bundles drive sign-ups

- **Description:** Providers (regional entrants and incumbents) use time-limited promos (first month free, first-year discounts, gift-card rebates) and streaming bundle credits to reduce friction and accelerate sign-ups during rollout windows.
- **Related research questions:** RQ2, RQ3, RQ7
- **Competitors involved:** Wire3, Spectrum, T-Mobile Home Internet

- **Evidence:** EV-4f63202e, EV-89785427, EV-951542ea, EV-fe02126f

THEME-2: Mobile + internet bundles affect perceived price/value

- **Description:** Mobile bundles and cross-product discounts (Spectrum Mobile, AT&T, T-Mobile) change the effective price customers pay and are used by incumbents to increase retention and justify higher post-promo prices.
- **Related research questions:** RQ2, RQ3
- **Competitors involved:** Spectrum, AT&T, T-Mobile Home Internet
- **Evidence:** EV-33618605, EV-bf5f8187, EV-32618472

THEME-3: Local fiber construction confers availability advantage

- **Description:** Active, visible fiber buildouts (press releases, 'halfway' milestones) let regional ISPs claim availability and offer multi-gig services in target markets, differentiating them from cable/5G incumbents.
- **Related research questions:** RQ2, RQ4
- **Competitors involved:** Wire3, AT&T, Spectrum
- **Evidence:** EV-d94963c8, EV-bab0d975, EV-db5591b3

THEME-4: Reliability and unlimited data remain decision drivers

- **Description:** Incumbents emphasize reliability and 'no-data-cap' positioning; fixed-wireless plans may exhibit priority thresholds or congestion policies that can push heavy users to fiber.
- **Related research questions:** RQ1
- **Competitors involved:** Spectrum, AT&T, T-Mobile Home Internet
- **Evidence:** EV-764b1863, EV-7b85fa9b, EV-c4b5ac0f

THEME-5: Local support is a small-business differentiator

- **Description:** Small businesses report valuing local technicians and faster responses; regional ISPs promote local staffing and faster SLAs to win business customers.
- **Related research questions:** RQ7
- **Competitors involved:** Wire3
- **Evidence:** EV-beca7d7f, EV-267cec38, EV-e3110146

7. SWOT analysis

Strengths

- **SWOT-S1:** Wire3 is actively building fiber into Marion County (Ocala), enabling multi-gig offerings. [EV-d94963c8, EV-da49655b]
- **SWOT-S2:** Spectrum has scale and a broad bundle set (Internet, Mobile, TV) to cross-sell in the region. [EV-56997533, EV-33618605]

Weaknesses

- **SWOT-W1:** Wire3 has lower brand recognition versus national incumbents in mid-size markets. [EV-4ba74fb7]
- **SWOT-W2:** Promo-driven pricing by incumbents can create post-promo bill shock for customers. [EV-31d73084, EV-2dfb031f]

Opportunities

- **SWOT-O1:** Use streaming bundles and free-install offers to accelerate sign-ups during construction windows. [EV-fe02126f, EV-4f63202e]
- **SWOT-O2:** Position local support and fast on-site fixes to win small-business customers frustrated by distant call centers. [EV-beca7d7f, EV-267cec38]

Threats

- **SWOT-T1:** National incumbents (Spectrum, AT&T, T-Mobile) use aggressive bundles, scale, and marketing to defend customers. [EV-acea4159, EV-bf5f8187, EV-944ad5f5]
- **SWOT-T2:** Local reports of installation damage or disruptions could slow adoption in target communities. [EV-72f1851e, EV-fcbb3375]

8. 7P market analysis

Product

- **Market description:** The market mixes cable HFC incumbents, national fiber providers, and 5G/fixed-wireless alternatives; consumers can choose entry 100 Mbps tiers up to multi-gigabit fiber where available. [EV-31d73084, EV-26834797, EV-ab4afe18]
- **Wire3 relevant fact:** Wire3 offers fiber plans from 250 Mbps to 10 Gbps and bundles streaming credits and eero Wi-Fi devices on many plans. [EV-d1118463, EV-33d161e7, EV-fe02126f]

Price

- **Market description:** Promotional entry pricing and bundle discounts are common; customers often face post-promo price increases and value is frequently influenced by mobile bundling. [EV-31d73084, EV-2dfb031f, EV-33618605]
- **Wire3 relevant fact:** Wire3 is running summer/launch promotions (first month free, promo rates on 1G+ tiers and streaming offers) to accelerate adoption during rollout. [EV-4f63202e, EV-89785427, EV-951542ea]

Place

- **Market description:** Availability is geographic: cable widely available in suburbs; fiber rollouts are staged city-by-city; 5G fixed-wireless covers gaps. Ocala includes Spectrum HFC, AT&T fiber and T-Mobile 5G options. [EV-6016b158, EV-56997533, EV-ab4afe18]

- **Wire3 relevant fact:** Wire3 has publicly announced Marion County/Ocala expansion and construction milestones supporting claims of local availability. [EV-d94963c8, EV-bab0d975]

Promotion

- **Market description:** Marketing commonly emphasizes 'first month free', streaming credits, trade-in rebates and mobile bundle discounts; digital activations sometimes have separate virtual prepaid card offers. [EV-fe02126f, EV-bd997613, EV-89076a03]
- **Wire3 relevant fact:** Wire3's promotions (Summer / FREEMO sale) include one-month free, reduced monthly pricing on tiers 1G+, and complimentary streaming (YouTube TV) for new customers. [EV-4f63202e, EV-951542ea, EV-cc457b54]

People

- **Market description:** Incumbents provide large-scale call centers and retail footprints; regional providers highlight local technicians and community-based support as a differentiator for service quality. [EV-59451b96, EV-beca7d7f, EV-267cec38]
- **Wire3 relevant fact:** Wire3 emphasizes local support teams in Florida and Georgia and advertises fast local response for small businesses and residential installs. [EV-beca7d7f, EV-e3110146]

Process

- **Market description:** Providers offer both self-install and professional installation; trial periods, price locks and return policies are used to reduce purchase friction. [EV-58fa6c25, EV-4f866997, EV-89076a03]
- **Wire3 relevant fact:** Wire3 advertises free professional installation and an online order/activation flow with promo codes and availability checks. [EV-fe02126f, EV-4f63202e]

Physical evidence

- **Market description:** Physical evidence includes network construction milestones, local press coverage, in-market advertising, and local retail/installer presence. [EV-bab0d975, EV-56997533, EV-9711e8d0]
- **Wire3 relevant fact:** Wire3 publishes construction progress (e.g., 'halfway' in Palm Bay) and local press/press releases documenting build activity. [EV-bab0d975, EV-db5591b3]

9. Ideal customer profiles

ICP-1: Residential price/value switcher (Ocala)

- **Description:** Households in Ocala that shop primarily on initial price and perceived value (promo-driven), but will switch for reliable multi-gig fiber, transparent pricing and local support. [THEME-1, THEME-3, SWOT-W1]
- **Current provider:** Spectrum, AT&T, T-Mobile Home Internet [THEME-2, THEME-3]
- **Demographic signals:**
 - Price-sensitive; responsive to time-limited promos and streaming credits. [THEME-1]
 - Households with multiple streamers and remote workers who value reliability and unlimited data. [THEME-4]

ICP-2: Small-business price/value switcher (Ocala)

- **Description:** Local small businesses frustrated with incumbents' distant support or variable reliability, open to switching for faster local technician response and predictable billing. [THEME-5, SWOT-O2]
- **Current provider:** Spectrum, AT&T [THEME-3, THEME-5]
- **Demographic signals:**
 - Values local field technicians and faster on-site SLAs over pure price. [THEME-5, SWOT-O2]
 - Likely to be influenced by professional-install inclusions and uptime guarantees. [EV-fe02126f, EV-91207f04]

10. Customer pains and desired outcomes

PAIN-1

- **Pain statement:** Promo-driven incumbent pricing leads to initial low monthly costs but causes confusion and post-promo bill shock. [THEME-1, SWOT-W2]
- **Desired outcome:** Clear, predictable pricing (transparent post-promo rates and blended examples) and simple, communicated renewal terms. [THEME-1]
- **Related icp ids:** ICP-1, ICP-2
- **Severity:** high [THEME-1, SWOT-W2]

PAIN-2

- **Pain statement:** Mobile + internet bundles from incumbents change effective price and make simple Internet-only comparisons difficult. [THEME-2]
- **Desired outcome:** A value narrative that normalizes the lack of a mobile bundle (explicitly explaining comparative total cost of ownership) or offers alternative bundle equivalents. [ASM-1, THEME-2]
- **Related icp ids:** ICP-1

- **Severity:** medium [THEME-2, ASM-1]

PAIN-3

- **Pain statement:** Low local brand recognition for Wire3 reduces trust among switchers compared with national incumbents. [SWOT-W1]
- **Desired outcome:** Fast awareness and social proof (local PR, testimonials, visible construction milestones) to build trust and lower perceived risk of switching. [THEME-3, SWOT-S1]
- **Related icp ids:** ICP-1, ICP-2
- **Severity:** medium [SWOT-W1, THEME-3]

11. Value proposition

- **Headline:** Ocala's local fiber alternative: predictable pricing, multi-gig reliability, and fast local support. [THEME-3, THEME-1, THEME-5]
- **Supporting points:**
- Multi-gig symmetric fiber plans with included eero Wi-Fi and professional installation. [SWOT-S1, EV-33d161e7, EV-d1118463]
- Promotions to lower early friction (first month free, streaming credits) timed with build milestones. [THEME-1, SWOT-O1]
- Local technicians and faster on-site response for residential and small-business customers. [THEME-5, SWOT-O2]
- **No bundle gap response:** Explicitly acknowledge Wire3 does not offer a mobile bundle; position Internet + streaming + included Wi-Fi devices as an alternative value stack and offer partner streaming credits/referral discounts to narrow the perceived gap. [ASM-1, SWOT-O1]
- **Low brand recognition response:** Accelerate visible local credibility via construction milestone PR, neighborhood install spotlights, local testimonials, and trial promotions tied to on-site pro installs. [THEME-3, SWOT-W1]

12. Positioning and differentiation

- **Positioning statement:** Wire3 is Ocala's locally built fiber provider offering multi-gig symmetric speeds, transparent launch pricing, and rapid local support—an alternative to incumbent bundle-driven offers. [THEME-3, THEME-1, SWOT-S1, SWOT-W1]
- **Differentiators:**
- Visible local fiber construction and availability claims backed by region-specific rollout messaging. [THEME-3, SWOT-S1]
- Included enhanced Wi-Fi (eero) and professional installation to reduce friction at sign-up. [EV-33d161e7, EV-fe02126f]
- Local field technicians and small-business support emphasis for faster SLAs. [THEME-5, SWOT-O2]
- **Competitive frame:** Wire3, Spectrum, AT&T, T-Mobile Home Internet

13. Message pillars

PILLAR-1: Multi-gig reliability & no data caps

- **Supporting message:** Advertise symmetric multi-gig fiber, no data caps, and included eero Wi-Fi to show superior reliability for heavy users and remote work. [THEME-4, SWOT-S1, EV-d1118463]
- **Target icp ids:** ICP-1, ICP-2

PILLAR-2: Transparent promos and predictable billing

- **Supporting message:** Lead with promo details and clearly communicate post-promo pricing examples to reduce bill-shock and build trust. [THEME-1, SWOT-W2]
- **Target icp ids:** ICP-1

PILLAR-3: Local support, fast fixes

- **Supporting message:** Promote local technicians, faster on-site response and business-focused SLAs to win customers frustrated with distant call centers. [THEME-5, SWOT-O2]
- **Target icp ids:** ICP-2, ICP-1

PILLAR-4: Value without mobile bundle

- **Supporting message:** Explain the comparative TCO: high-speed fiber + streaming credits + included Wi-Fi can match or beat bundle-adjusted prices from incumbents. [ASM-1, THEME-2, SWOT-O1]
- **Target icp ids:** ICP-1

14. Recommended channels

CHANNEL-1: Targeted digital search & social ads (promo-focused)

- **Channel category:** digital_paid
- **Budget tier:** medium
- **Rationale:** Paid search and social ads capture active switchers searching promo terms and highlight time-limited offers tied to availability checks. [THEME-1, THEME-3]
- **Target icp ids:** ICP-1

CHANNEL-2: Local SEO, availability landing pages & organic social

- **Channel category:** digital_organic
- **Budget tier:** low
- **Rationale:** Organic channels build credibility around local availability, construction milestones, and testimonials at low cost. [THEME-3, SWOT-W1]

- **Target icp ids:** ICP-1, ICP-2

CHANNEL-3: Local events, community PR and direct mail

- **Channel category:** local_offline
- **Budget tier:** medium
- **Rationale:** Community activation (press about build milestones, booth at local events, direct mail) builds trust among residents who prefer local proof points. [THEME-3, SWOT-W1]
- **Target icp ids:** ICP-1, ICP-2

CHANNEL-4: Streaming partner credits & local partnerships

- **Channel category:** partnership
- **Budget tier:** low
- **Rationale:** Partnering for streaming credits or local business bundles replicates some perceived value of mobile bundles without building a mobile product. [SWOT-O1, THEME-1, ASM-1]
- **Target icp ids:** ICP-1

CHANNEL-5: Customer referral & installer-led door campaigns

- **Channel category:** referral
- **Budget tier:** low
- **Rationale:** Referral incentives and installer neighborhood outreach convert nearby homes during build phases and amplify local testimonials. [THEME-3, SWOT-O2]
- **Target icp ids:** ICP-1, ICP-2

15. Launch phases and activities

PHASE-1: Awareness & availability

- **Sequence order:** 1
- **Timeframe:** Weeks 0-6 (pre- and early-rollout)
- **Activities:**
 - Publish availability map, construction milestone PR and neighborhood-level landing pages with promo messaging. [THEME-3, SWOT-S1]
 - Run targeted digital ads to price/value switchers promoting first-month-free and streaming credits. [THEME-1]
 - **Exit criteria:** Availability pages live for target neighborhoods; initial digital campaigns achieving target CTR and landing-page conversion rates (see metrics).

PHASE-2: Convert & onboard

- **Sequence order:** 2

- **Timeframe:** Weeks 4-16 (peak install window)
- **Activities:**
- Offer clear promo pricing with explicit post-promo examples at checkout; enable pro-install scheduling and local tech introductions. [THEME-1, EV-fe02126f]
- Activate referral incentives and streaming partner credits at install to offset lack of mobile bundle. [ASM-1, SWOT-O1]
- **Exit criteria:** Achieve target new-customer sign-ups in build areas and maintain installation quality KPIs below defect threshold.

PHASE-3: Retain & scale

- **Sequence order:** 3
- **Timeframe:** Months 3-12 (post-rollout scale)
- **Activities:**
- Push referral campaigns, monitor local NPS and quickly remediate installation complaints with local crews. [THEME-5, SWOT-T2]
- Iterate pricing packages and consider limited third-party mobile/ISP partnerships if needed to close bundle-sensitive segments. [THEME-2, ASM-1]
- **Exit criteria:** Sustained monthly net adds and retention above target thresholds; referral program drives a growing share of new sign-ups.

16. Success metrics

METRIC-1: Net new subscribers in Ocala (first 6 months)

- **Definition:** Count of activated residential and small-business subscriptions in target Ocala neighborhoods within 6 months of campaign start.
- **Target value:** 1,000 net new subscribers in 6 months (illustrative regional target) [THEME-3, THEME-1]
- **Measurement cadence:** monthly

METRIC-2: Promo-to-paid conversion rate (month 1 -> month 3)

- **Definition:** Share of promo-originated customers who remain active after the immediate promo period (indicator of post-promo satisfaction).
- **Target value:** $\geq 70\%$ retained past initial promo period (inference) [THEME-1, SWOT-W2]
- **Measurement cadence:** monthly

METRIC-3: Installation quality / defect rate

- **Definition:** Percentage of installs requiring rework or causing customer complaints within 30 days.
- **Target value:** $\leq 3\%$ rework/complaint rate (inference) [SWOT-T2, THEME-5]
- **Measurement cadence:** weekly

METRIC-4: Local NPS (residential & small business)

- **Definition:** Net Promoter Score measured for Ocala customers to assess local credibility and support performance.
- **Target value:** NPS $\geq$ 40 within 6 months (inference) [THEME-5, SWOT-W1]
- **Measurement cadence:** monthly

17. Risks

RISK-1

- **Statement:** Incumbents use aggressive mobile+internet bundles and promo stacking to defend customers, making switch economics harder for Wire3. [SWOT-T1, THEME-2]
- **Likelihood:** high [SWOT-T1]
- **Impact:** high [THEME-2, SWOT-T1]
- **Mitigation:** Emphasize alternative value (streaming credits, included Wi-Fi), transparent TCO comparisons, and local support benefits; explore partnerships to mimic bundle economics. [SWOT-O1, ASM-1, THEME-1]

RISK-2

- **Statement:** Local reports of installation damage or service disruptions could slow adoption during rollout. [SWOT-T2]
- **Likelihood:** medium [SWOT-T2]
- **Impact:** high [SWOT-T2]
- **Mitigation:** Deploy quality-grade installation SOPs, rapid local remediation teams, and proactive communications; surface testimonials from clean installs promptly. [THEME-5, SWOT-O2]

RISK-3

- **Statement:** Post-promo churn or perceived bill-shock if post-promo rates are unclear or high. [THEME-1, SWOT-W2]
- **Likelihood:** high [THEME-1]
- **Impact:** medium [SWOT-W2]
- **Mitigation:** Publish clear post-promo pricing examples at point-of-sale, offer blended 12-month pricing options and proactive renewal reminders to set expectations. [THEME-1]

18. Assumptions, unknowns and conflicts

Assumptions

ASM-1

- **Statement:** Wire3 does not offer a mobile bundle product as of the evidence set.

- **Rationale:** No Wire3 evidence records in the set describe a Wire3-branded mobile bundle; company pages emphasize fiber and smart-home extras only.
- **Evidence ids:** EV-d94963c8, EV-33d161e7

ASM-2

- **Statement:** Promotional offers (first-month free, streaming credits, gift-card rebates) are primary short-term customer acquisition tools across competitors.
- **Rationale:** Multiple providers in the evidence set run time-limited promos and streaming credits simultaneously with new market activity.
- **Evidence ids:** EV-4f63202e, EV-31d73084, EV-89076a03

Unknowns

UNK-1

- **Research question id:** RQ2
- **Description:** Wire3's definitive post-promo (standard) monthly price per plan across all tiers and any long-term rate guarantees.
- **Reason unresolved:** Wire3 evidence shows promotional pricing for launches and construction promotions but does not publish a clear, consistent post-promo standard monthly rate for every tier in the provided excerpts (only promos and example prices are shown).

UNK-2

- **Research question id:** RQ3
- **Description:** Complete numeric list of early-termination fees (ETFs) and monthly equipment rental fees for AT&T, Spectrum and T-Mobile specifically in Marion County addresses.
- **Reason unresolved:** Supplier excerpts mention fees and contract terms at a policy level but the provided evidence does not include a comprehensive, location-specific numeric table of ETFs and equipment fees for each competitor.

UNK-3

- **Research question id:** RQ1
- **Description:** Street-level serviceability map (exact address-level availability polygons) for Wire3 within Marion County/Ocala.
- **Reason unresolved:** Wire3 confirms expansion to Marion County and provides availability checks but the provided evidence does not include a downloadable/embeddable street-level coverage polygon dataset in the excerpts.

Conflicts

CONF-1

- **Research question id:** RQ2
- **Evidence id a:** EV-084a2ead
- **Evidence id b:** EV-a89f66b2
- **Description:** T-Mobile promotional price claims differ across sources: a T-Mobile social post claims \$30/mo with AutoPay and qualifying voice line (EV-084a2ead) while other aggregators/guides list Rely at \$35/mo with AutoPay and voice (EV-a89f66b2).

- **Resolution status:** unresolved

CONF-2

- **Research question id:** RQ4
- **Evidence id a:** EV-72f1851e
- **Evidence id b:** EV-113bb33f
- **Description:** Local community reports allege Wire3 installation damage and disruptions (EV-72f1851e), while Wire3 marketing/testimonials claim smooth installs and high satisfaction (EV-113bb33f).
- **Resolution status:** both_retained_as_uncertain

19. Follow-up research questions

FRQ-1

- **Question:** What are Wire3's standard post-promo monthly prices by tier (all published non-promotional rates) and any long-term rate guarantees for Ocala addresses?
- **Rationale:** Analyst evidence documents promotional pricing but does not list definitive post-promo standard monthly rates across tiers (needed to craft transparent TCO messaging).
- **Related unknown ids:** UNK-1
- **Priority:** high

FRQ-2

- **Question:** What are the exact early-termination fees (ETFs) and equipment rental fees for Spectrum, AT&T and T-Mobile in Marion County addresses to allow competitive price comparisons?
- **Rationale:** Competitive fee schedules are referenced but not compiled; exact numbers are needed to produce apples-to-apples comparisons for switcher messaging.
- **Related unknown ids:** UNK-2
- **Priority:** medium

FRQ-3

- **Question:** Can Wire3 provide a street-level serviceability map or address-level availability polygons for Marion County / Ocala to enable precise direct-marketing and door-hanger targeting?
- **Rationale:** Precise address-level availability is not present in the evidence; availability polygons are needed to focus local offline and paid campaigns and avoid wasted spend.
- **Related unknown ids:** UNK-3
- **Priority:** high

Appendix A: Analyst findings referenced

- **[ASM-1]** Wire3 does not offer a mobile bundle product as of the evidence set. -- [EV-d94963c8] [EV-33d161e7]
- **[SWOT-O1]** Use streaming bundles and free-install offers to accelerate sign-ups during construction windows. -- [EV-fe02126f] [EV-4f63202e]
- **[SWOT-O2]** Position local support and fast on-site fixes to win small-business customers frustrated by distant call centers. -- [EV-beca7d7f] [EV-267cec38]
- **[SWOT-S1]** Wire3 is actively building fiber into Marion County (Ocala), enabling multi-gig offerings. -- [EV-d94963c8] [EV-da49655b]
- **[SWOT-T1]** National incumbents (Spectrum, AT&T, T-Mobile) use aggressive bundles, scale, and marketing to defend customers. -- [EV-acea4159] [EV-bf5f8187] [EV-944ad5f5]
- **[SWOT-T2]** Local reports of installation damage or disruptions could slow adoption in target communities. -- [EV-72f1851e] [EV-fcbb3375]
- **[SWOT-W1]** Wire3 has lower brand recognition versus national incumbents in mid-size markets. -- [EV-4ba74fb7]
- **[SWOT-W2]** Promo-driven pricing by incumbents can create post-promo bill shock for customers. -- [EV-31d73084] [EV-2dfb031f]
- **[THEME-1]** Promotional pricing and streaming bundles drive sign-ups -- [EV-4f63202e] [EV-89785427] [EV-951542ea] [EV-fe02126f]
- **[THEME-2]** Mobile + internet bundles affect perceived price/value -- [EV-33618605] [EV-bf5f8187] [EV-32618472]
- **[THEME-3]** Local fiber construction confers availability advantage -- [EV-d94963c8] [EV-bab0d975] [EV-db5591b3]
- **[THEME-4]** Reliability and unlimited data remain decision drivers -- [EV-764b1863] [EV-7b85fa9b] [EV-c4b5ac0f]
- **[THEME-5]** Local support is a small-business differentiator -- [EV-beca7d7f] [EV-267cec38] [EV-e3110146]
