

Wire3 Go-To-Market Plan

Run: r3Wk9q | Brief: r3Wk9q | Generated: 2026-09-23 17:05 UTC | Sources cited: 46

How to read citations: bracketed IDs such as [THEME-3] are analyst findings, listed in Appendix A with the evidence behind them; every source is in Appendix B as a clickable link. [inference] marks strategist judgment not directly supported by a source; [brief] marks a fact stated in the project brief.

1. Executive summary

Target: Residential price/value switchers currently on a competitor in Ocala, FL / Marion County, FL.

Value proposition: Local multi-gig fiber with transparent pricing, included Wi-Fi, and white-glove installation. [SWOT-S1, EV-33d161e7, THEME-4]

Positioning: Wire3 positions as the local alternative to national incumbents: full-fiber, symmetric multi-gig performance with local technicians and transparent pricing favored by customers who want reliability plus clear value. [SWOT-S1, THEME-4]

The plan recommends 4 channels (Targeted social & search ads (local radius), Local SEO & Google Business (address-level availability pages), Community events & local sponsorships, Builder/real-estate partnerships), 3 launch phases and 4 success metrics, and lists 3 risks and 2 follow-up research questions.

2. Research scope and evidence

19 planned research calls returned 472 evidence records retrieved 2026-09-23. Research questions:

- **RQ1:** What is each competitor's actual serviceable footprint and advertised speed tiers in Ocala/Marion County specifically?
- **RQ2:** What are current standalone and bundled pricing tiers, promo rates, and post-promo rates for each competitor?
- **RQ3:** What early-termination fees, equipment/rental fees, and other recurring surcharges does each competitor charge?
- **RQ4:** What documented triggers cause residential customers to switch ISPs (promo-cliff bill shock, reliability, customer service, moving)?
- **RQ5:** How much does a bundled mobile plan influence purchase decisions for price/value switchers specifically?
- **RQ6:** What do verified customer reviews/complaints say about each competitor's pain points, prioritizing Ocala/central-FL sources?
- **RQ7:** How have other regional fiber ISPs without a mobile bundle positioned and priced against national cable/wireless incumbents?
- **RQ8:** What marketing channels are effective and cost-appropriate for a low-brand-recognition regional ISP in a mid-size FL market?

3. Competitor comparison

Wire3

- **Footprint confirmed in region:** Yes [EV-d94963c8, EV-d7118dd5, EV-981de6aa]
- **Service type:** fiber [brief]
- **Has mobile bundle available:** No [brief]
- **Top advertised speed mbps down:** 10000 [EV-130af6fa, EV-d7118dd5]
- **Top advertised speed mbps up:** 10000 [EV-130af6fa, EV-d7118dd5]
- **Summary note:** Wire3 is a regional 100% fiber provider in Florida offering residential plans from 250 Mbps up to 10 Gbps (symmetrical), emphasizing local support and transparent pricing. [EV-d7118dd5, EV-130af6fa, EV-e3110146]

Spectrum

- **Footprint confirmed in region:** Yes [inference]
- **Service type:** hybrid (HFC/fiber) [EV-f536aad1]
- **Has mobile bundle available:** Yes [EV-fa4ca232, EV-83e823a3]
- **Top advertised speed mbps down:** 2000 [EV-7f5dc183]
- **Top advertised speed mbps up:** 35 [EV-f536aad1, EV-7f5dc183]
- **Summary note:** Spectrum (Charter) is a large incumbent cable operator offering wide regional availability, bundle options (TV/mobile), multi-tiered internet (100 Mbps to multi-gig in select markets) delivered over HFC with fiber-fed plant. [EV-f536aad1]

AT&T

- **Footprint confirmed in region:** Yes [EV-6016b158, EV-5159406a]
- **Service type:** fiber [EV-6016b158, EV-4164c15f]
- **Has mobile bundle available:** Yes [EV-c1dd369d, EV-5159406a]
- **Top advertised speed mbps down:** 5000 [EV-6016b158]
- **Top advertised speed mbps up:** 5000 [EV-6016b158]
- **Summary note:** AT&T offers extensive fiber and wireless services, including multi-gig fiber tiers and wireless home internet (Internet Air). Their product set spans consumer and enterprise, with bundled mobile and home internet options. [EV-6016b158, EV-5159406a, EV-4164c15f]

T-Mobile Home Internet

- **Footprint confirmed in region:** Yes [EV-6e011fda, EV-9c3ea513]
- **Service type:** fixed wireless (5G) / fiber [EV-9c3ea513, EV-6e011fda]
- **Has mobile bundle available:** Yes [EV-4f866997]
- **Top advertised speed mbps down:** 498 [EV-9c3ea513, EV-a79f651f]
- **Top advertised speed mbps up:** 55 [EV-9c3ea513]

- **Summary note:** T-Mobile sells 5G fixed wireless home internet (and fiber in select markets). Plans emphasize simple pricing, rapid self-install, and a 5-year price lock on qualifying plans. [EV-9c3ea513, EV-0cc2c883, EV-4f866997]

4. Product and feature comparison

Wire3

- **Technology type:** fiber [EV-d7118dd5, EV-130af6fa]
- **Symmetric speeds:** Yes [EV-130af6fa]
- **Data cap present:** No [EV-d7118dd5, EV-3e13c51c]
- **Wifi router included:** Yes [EV-d7118dd5, EV-33d161e7]
- **Professional install included:** Yes [EV-fc020f49, EV-33d161e7]
- **Self install available:** Yes [EV-33d161e7, EV-3e13c51c]
- **Contract required:** No [EV-e3110146]
- **Contract length months:** n/a [EV-e3110146]
- **Customer support channels:** phone, online chat, local technicians / field support [EV-37ccf9d0, EV-3e13c51c]
- **Additional features:**
- **Name:** Included eero Wi-Fi router
- **Field:** Free eero device included with plans [EV-d7118dd5, EV-33d161e7]
- **Name:** White-glove setup
- **Field:** White Glove Basic Setup included free [EV-33d161e7, EV-fc020f49]
- **Name:** Streaming bundle
- **Field:** Up to 4 months of streaming included on select plans [EV-fc020f49, EV-ca45782e]

Spectrum

- **Technology type:** hybrid (HFC/fiber) [EV-7803b81d]
- **Symmetric speeds:** No [EV-f536aad1, EV-15d780e2]
- **Data cap present:** No [EV-f536aad1]
- **Wifi router included:** Yes [EV-f536aad1, EV-15d780e2]
- **Professional install included:** No [EV-58fa6c25]
- **Self install available:** Yes [inference]
- **Contract required:** No [EV-929f555a]
- **Contract length months:** n/a [EV-929f555a]
- **Customer support channels:** phone, online chat, in-store / retail [EV-80e5177f, EV-4c6c24d8]
- **Additional features:**
- **Name:** TV bundles and apps
- **Field:** Spectrum offers TV packages and streaming app bundles with some TV plans [EV-4c6c24d8, EV-15d780e2]
- **Name:** Mobile bundle

- **Field:** Spectrum Mobile offers discounts and bundling for Spectrum Internet customers [EV-fa4ca232]

AT&T

- **Technology type:** fiber [EV-6016b158, EV-5159406a]
- **Symmetric speeds:** Yes [EV-6016b158, EV-4164c15f]
- **Data cap present:** No [EV-5159406a, EV-3ccb3abd]
- **Wifi router included:** Yes [EV-5159406a]
- **Professional install included:** Yes [EV-5159406a]
- **Self install available:** Yes [EV-5159406a]
- **Contract required:** No [EV-3ccb3abd]
- **Contract length months:** n/a [EV-3ccb3abd]
- **Customer support channels:** phone, online chat, in-store [EV-00b87eb3, EV-5159406a]
- **Additional features:**
- **Name:** Internet Air (5G home option)
- **Field:** AT&T offers a 5G-based home internet product (Internet Air) in addition to fiber [EV-5159406a]
- **Name:** Business-grade services
- **Field:** AT&T Business offers enterprise connectivity, cloud and managed services [EV-4164c15f]

T-Mobile Home Internet

- **Technology type:** fixed wireless (5G) and fiber (select markets) [EV-9c3ea513, EV-6e011fda]
- **Symmetric speeds:** No [EV-9c3ea513]
- **Data cap present:** No [EV-9c3ea513, EV-d91e1bf7]
- **Wifi router included:** Yes [EV-9c3ea513, EV-5619776a]
- **Professional install included:** No [EV-9c3ea513, EV-d8e347de]
- **Self install available:** Yes [EV-9c3ea513, EV-d8e347de]
- **Contract required:** No [EV-4f866997, EV-21fcfe14]
- **Contract length months:** n/a [EV-4f866997]
- **Customer support channels:** phone, app, online chat [EV-5619776a, EV-31730461]
- **Additional features:**
- **Name:** 5-year price lock
- **Field:** Eligible plans feature a 5-year price guarantee [EV-ead5147a]
- **Name:** Short trial / promos
- **Field:** Promotions such as a free month and virtual gift-card offers for new customers [EV-0cc2c883, EV-ee304b4f]

5. Pricing matrix

Spectrum: Spectrum Internet Premier (500 Mbps) - promotional rate

- **Plan name:** Spectrum Internet Premier (500 Mbps) - promotional rate [EV-f536aad1, EV-89785427]
- **Speed mbps down:** 500 [EV-f536aad1]
- **Promo status:** has_promo [EV-89785427, EV-88785294]
- **Promo price usd per month:** 40 [EV-89785427, EV-88785294]
- **Promo duration months:** 12 [EV-89785427]
- **Post promo price usd per month:** 70 [inference]
- **Equipment fee usd per month:** 0 [EV-f536aad1]
- **Early termination fee usd:** 0 [EV-f536aad1]
- **Blended 12mo effective price usd:** 40 [EV-89785427, EV-f536aad1] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

AT&T: AT&T Fiber (entry-level advertised)

- **Plan name:** AT&T Fiber (entry-level advertised) [EV-5159406a, EV-6016b158]
- **Speed mbps down:** 1000 [EV-6016b158]
- **Promo status:** no_promo_found [EV-5159406a]
- **Promo price usd per month:** 34 [EV-5159406a]
- **Promo duration months:** 0 [EV-5159406a]
- **Post promo price usd per month:** 34 [inference]
- **Equipment fee usd per month:** 0 [EV-5159406a]
- **Early termination fee usd:** 0 [inference]
- **Blended 12mo effective price usd:** 34 [EV-5159406a, EV-6016b158] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

T-Mobile Home Internet: T-Mobile Rely (post-discount / AutoPay + voice)

- **Plan name:** T-Mobile Rely (post-discount / AutoPay + voice) [EV-a79f651f, EV-0cc2c883]
- **Speed mbps down:** 354 [EV-a79f651f, EV-9c3ea513]
- **Promo status:** has_promo [EV-0cc2c883]
- **Promo price usd per month:** 35 [EV-a79f651f]
- **Promo duration months:** 1 [EV-0cc2c883]
- **Post promo price usd per month:** 50 [EV-a79f651f]
- **Equipment fee usd per month:** 0 [EV-9c3ea513, EV-4f866997]
- **Early termination fee usd:** 0 [inference]
- **Blended 12mo effective price usd:** 48.75 [EV-0cc2c883, EV-a79f651f] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

6. Market themes

THEME-1: Promotions & short-term price actions

- **Description:** Multiple competitors are using short-duration promotions (free months, streaming bundles, introductory rates) to accelerate sign-ups; these promos affect effective first-year pricing and customer acquisition.
- **Related research questions:** RQ1, RQ2, RQ3
- **Competitors involved:** Wire3, Spectrum, T-Mobile Home Internet
- **Evidence:** EV-ca45782e, EV-89785427, EV-0cc2c883

THEME-2: Fiber network buildouts and regional expansion

- **Description:** Regional fiber buildouts (Wire3, AT&T, Spectrum Enterprise/fiber projects) continue to expand coverage; new construction announcements materially change address-level availability over short time horizons.
- **Related research questions:** RQ2, RQ3, RQ4
- **Competitors involved:** Wire3, AT&T, Spectrum
- **Evidence:** EV-d94963c8, EV-bab0d975, EV-9711e8d0

THEME-3: 5G fixed wireless as a competitive alternative

- **Description:** T-Mobile (and to a lesser extent AT&T via Internet Air) position 5G fixed wireless as a fast, low-friction alternative to wired last-mile options in many markets, with fast self-install and price guarantees.
- **Related research questions:** RQ1, RQ5, RQ7
- **Competitors involved:** T-Mobile Home Internet, AT&T
- **Evidence:** EV-9c3ea513, EV-4f866997, EV-0cc2c883

THEME-4: Customer experience and local support messaging

- **Description:** Regional players like Wire3 emphasize local technicians, no-hidden-fees and local support as differentiators versus national incumbents; incumbents emphasize scale and bundled services.
- **Related research questions:** RQ4, RQ5, RQ7
- **Competitors involved:** Wire3, Spectrum, AT&T
- **Evidence:** EV-37ccf9d0, EV-e3110146, EV-4c6c24d8

7. SWOT analysis

Strengths

- **SWOT-S1:** Wire3 operates 100% fiber with plans up to 10 Gbps and emphasizes symmetrical speeds. [EV-130af6fa, EV-d7118dd5]

Weaknesses

- **SWOT-W1:** As a regional provider, Wire3's footprint is smaller than national incumbents which may limit scale advantages in some markets. [EV-d94963c8, EV-da49655b]

Opportunities

- **SWOT-O1:** Promotional price moves and streaming bundles create opportunities to capture price-sensitive households during promotional windows. [EV-ca45782e, EV-0cc2c883]

Threats

- **SWOT-T1:** Large incumbents (Spectrum, AT&T, T-Mobile) have bundled offerings, scale, and deep pockets for network expansion and promotional spending. [EV-6016b158, EV-9c3ea513]

8. 7P market analysis

Product

- **Market description:** The market includes full-fiber regional entrants (Wire3), national cable/fiber incumbents (Spectrum, AT&T) and 5G fixed wireless alternatives (T-Mobile). Product differentiation centers on speed symmetry, installation model, and included consumer features (Wi-Fi, streaming bundles). [EV-d7118dd5, EV-9c3ea513]
- **Wire3 relevant fact:** Wire3 offers residential plans from 250 Mbps to 10 Gbps with included eero Wi-Fi and white-glove setup on many plans. [EV-d7118dd5, EV-130af6fa, EV-33d161e7]

Price

- **Market description:** First-year effective pricing is strongly influenced by promotional discounts (free months, reduced first-year rates); incumbents and challengers both use promos to acquire customers. [EV-89785427, EV-0cc2c883, EV-f536aad1]
- **Wire3 relevant fact:** Wire3 has advertised promotional summer pricing (e.g., Liftoff \$30/mo) and a free first month on select plans. [EV-ca45782e, EV-fc020f49, EV-88785294]

Place

- **Market description:** Availability is address-specific; fiber rollouts occur street-by-street, while 5G fixed wireless availability depends on local cellular capacity and coverage. [EV-d94963c8, EV-9c3ea513, EV-bab0d975]
- **Wire3 relevant fact:** Wire3 is actively building out in Central Florida communities (Ocala, Palm Bay, Jacksonville, Merritt Island), with construction progress disclosed in local press. [EV-d94963c8, EV-bab0d975, EV-da49655b]

Promotion

- **Market description:** Promotions commonly include free trial months, streaming credits, and reduced pricing for a defined promo term; they materially change effective monthly cost in year one. [EV-ca45782e, EV-0cc2c883, EV-89785427]
- **Wire3 relevant fact:** Wire3 launched a summer offer with one month free and reduced monthly pricing across tiers through a limited-time promotion. [EV-ca45782e, EV-88785294]

People

- **Market description:** Customer support channels vary: incumbents offer large-scale call centers and in-store support; regional providers emphasize local technicians and field teams as a differentiator. [EV-80e5177f, EV-37ccf9d0, EV-3e13c51c]
- **Wire3 relevant fact:** Wire3 markets local Florida/Georgia-based support and fast local technician response as core service elements. [EV-37ccf9d0, EV-e3110146]

Process

- **Market description:** Installation models range from self-install plug-and-play (5G fixed wireless) to professional fiber drop and inside wiring; time-to-activate and reliability expectations differ by technology. [EV-9c3ea513, EV-33d161e7, EV-58fa6c25]
- **Wire3 relevant fact:** Wire3 provides professional installation (white-glove) for many residential customers and advertises simplified setup with included eero hardware. [EV-33d161e7, EV-fc020f49]

Physical evidence

- **Market description:** Physical evidence includes fiber construction visible in communities, provider-branded gateways in homes, and local storefront/service centers for some incumbents. [EV-bab0d975, EV-9c3ea513]
- **Wire3 relevant fact:** Wire3 has publicly announced construction milestones (Palm Bay, Titusville, Jacksonville) and shows active build sites in press releases. [EV-bab0d975, EV-b6f8677c]

9. Ideal customer profiles

ICP-1: Price-sensitive promo seekers

- **Description:** Households that shop primarily on first-year effective price and short-term promotions (free months, streaming credits) and may switch providers to capture intro offers. [THEME-1, SWOT-O1]
- **Current provider:** Spectrum, T-Mobile Home Internet [EV-89785427, EV-0cc2c883]
- **Demographic signals:**

- Cost-conscious households with moderate bandwidth needs who respond to promos [THEME-1, SWOT-O1]

ICP-2: Local experience & service seekers

- **Description:** Consumers who prioritize local technician support, transparent billing, and rapid field response over national-scale bundled offerings. [THEME-4]
- **Current provider:** Wire3, AT&T [EV-37ccf9d0, EV-5159406a]
- **Demographic signals:**
- Households in recently built/expanding fiber neighborhoods valuing in-home install and local techs [THEME-2, THEME-4]

ICP-3: High-performance multi-gig users

- **Description:** Power users (creators, dense smart homes, small offices) who demand symmetric multi-gigabit speeds and reliable service. [SWOT-S1, EV-130af6fa]
- **Current provider:** Wire3, AT&T [EV-130af6fa, EV-6016b158]
- **Demographic signals:**
- Households with multiple simultaneous high-bandwidth users or creators needing symmetric throughput [SWOT-S1]

10. Customer pains and desired outcomes

PAIN-1

- **Pain statement:** Customers experience bill shock after promotional periods because ongoing post-promo prices are unclear or not published. [THEME-1, UNK-1]
- **Desired outcome:** Clear, published ongoing rates and a simple first-year vs ongoing price table so customers can compare effective annual cost. [inference]
- **Related icp ids:** ICP-1, ICP-2
- **Severity:** high [THEME-1]

PAIN-2

- **Pain statement:** Some customers distrust installation quality or have mixed reports about field technician outcomes. [EV-72f1851e, EV-113bb33f]
- **Desired outcome:** Consistently high-quality installations with documented QA and local escalation paths to rebuild trust. [inference]
- **Related icp ids:** ICP-2
- **Severity:** medium [THEME-4]

PAIN-3

- **Pain statement:** High-performance users need guaranteed symmetric speeds and capacity that some alternatives (fixed wireless/cable) cannot reliably provide. [SWOT-S1, THEME-3]
- **Desired outcome:** A clear technical guarantee and published symmetric tiers (including SLA-like expectations) for multi-gig plans. [inference]
- **Related icp ids:** ICP-3
- **Severity:** high [SWOT-S1]

11. Value proposition

- **Headline:** Local multi-gig fiber with transparent pricing, included Wi-Fi, and white-glove installation. [SWOT-S1, EV-33d161e7, THEME-4]
- **Supporting points:**
- Symmetric speeds up to 10 Gbps and fiber-first topology for reliability and future-proofing. [SWOT-S1, EV-130af6fa]
- Included eero Wi-Fi and white-glove/professional installation to reduce activation friction. [EV-33d161e7, EV-fc020f49]
- Transparent, locally supported customer experience with no hidden fees and clear promo-to-standard pricing disclosure. [THEME-4, THEME-1, EV-e3110146]
- **No bundle gap response:** Offer clear a-la-carte pricing and optional partner mobile add-ons (reseller or referral) rather than forcing bundled mobile; emphasize superior home connectivity value where mobile bundles add limited incremental benefit. [brief]
- **Low brand recognition response:** Execute targeted local awareness programs (community events, co-branded local promotions, homeowner-association outreach) and showcase local tech teams and installation stories to build trust. [inference]

12. Positioning and differentiation

- **Positioning statement:** Wire3 positions as the local alternative to national incumbents: full-fiber, symmetric multi-gig performance with local technicians and transparent pricing favored by customers who want reliability plus clear value. [SWOT-S1, THEME-4]
- **Differentiators:**
- 100% fiber with symmetric multi-gig tiers (up to 10 Gbps). [SWOT-S1, EV-130af6fa]
- Local-installed white-glove service and local technicians for faster, trusted support. [THEME-4, EV-37ccf9d0]
- Transparent promo-to-standard pricing and included hardware to reduce bill-shock. [THEME-1, EV-33d161e7]
- **Competitive frame:** Spectrum, AT&T, T-Mobile Home Internet

13. Message pillars

PILLAR-1: Performance & Future-Proofing

- **Supporting message:** Deliver symmetric, multi-gig fiber capable of supporting homes and small businesses with heavy concurrent usage. [SWOT-S1, EV-130af6fa]
- **Target icp ids:** ICP-3

PILLAR-2: Local Service & Trust

- **Supporting message:** Local technicians, quick field response, and on-the-ground support that national players cannot match. [THEME-4, EV-37ccf9d0]
- **Target icp ids:** ICP-2, ICP-1

PILLAR-3: Transparent Value & Simple Pricing

- **Supporting message:** Publish clear first-year vs ongoing prices and highlight included hardware and no hidden fees to prevent bill shock. [THEME-1, UNK-1]
- **Target icp ids:** ICP-1, ICP-2

PILLAR-4: Low-friction Activation

- **Supporting message:** Include professional install options and easy self-install alternatives plus bundled short-term streaming offers for quick trial. [EV-33d161e7, THEME-1]
- **Target icp ids:** ICP-2, ICP-1

14. Recommended channels

CHANNEL-1: Targeted social & search ads (local radius)

- **Channel category:** digital_paid
- **Budget tier:** medium
- **Rationale:** Local paid search and social allow address-level targeting near buildouts and can promote time-limited promos to price-sensitive segments. [THEME-2, THEME-1]
- **Target icp ids:** ICP-1, ICP-2

CHANNEL-2: Local SEO & Google Business (address-level availability pages)

- **Channel category:** digital_organic
- **Budget tier:** low
- **Rationale:** Organic search captures in-market customers checking availability; address-specific pages help convert neighborhoods as construction completes. [THEME-2]

- **Target icp ids:** ICP-2, ICP-3

CHANNEL-3: Community events & local sponsorships

- **Channel category:** local_offline
- **Budget tier:** low
- **Rationale:** Sponsoring local events and homeowner-association briefings showcases local teams and builds trust vs national incumbents. [THEME-4]
- **Target icp ids:** ICP-2

CHANNEL-4: Builder/real-estate partnerships

- **Channel category:** partnership
- **Budget tier:** medium
- **Rationale:** Partnering with local builders and real-estate agents secures early access to new neighborhoods during fiber rollouts. [THEME-2]
- **Target icp ids:** ICP-2, ICP-3

15. Launch phases and activities

PHASE-1: Prelaunch / Awareness

- **Sequence order:** 1
- **Timeframe:** 0-3 months before service availability
- **Activities:**
 - Publish address-specific availability and clear first-year vs ongoing price pages; set up local SEO and GMB listings. [THEME-2, UNK-1]
 - Run localized social/search ads to promote sign-ups and capture interest lists for imminent neighborhoods. [THEME-1]
- **Exit criteria:** Availability pages live for target neighborhoods and interest list > X signups (inference-based threshold).

PHASE-2: Acquisition / Initial Offer

- **Sequence order:** 2
- **Timeframe:** Launch month through first 3 months of service availability
- **Activities:**
 - Offer a time-limited promotional rate (clear promo duration and post-promo pricing) and optional short-term streaming credits to accelerate installs. [THEME-1, EV-ca45782e]
 - Highlight included eero hardware and white-glove install in all launch creative to reduce friction. [EV-33d161e7, EV-fc020f49]
- **Exit criteria:** Achieve target new-subscriber pace in launch areas and maintain install quality SLAs above threshold.

PHASE-3: Scale & Retention

- **Sequence order:** 3
- **Timeframe:** 3-12 months post-launch
- **Activities:**
 - Shift budget to retention marketing, referral incentives, and builder partnerships while optimizing ad spend to profitable channels. [inference; THEME-1, THEME-2]
 - Implement quality-assurance follow-ups for installs and local case studies to address any reputation concerns. [EV-113bb33f, EV-72f1851e]
- **Exit criteria:** Sustained positive NPS trend and stable/declining churn in target areas.

16. Success metrics

METRIC-1: New subscribers per launch neighborhood (monthly)

- **Definition:** Number of activated residential subscriptions in target neighborhoods per month.
- **Target value:** 200 [inference]
- **Measurement cadence:** monthly

METRIC-2: First-year effective ARPU (USD)

- **Definition:** Average revenue per user over first 12 months (blended across promo and post-promo months).
- **Target value:** 45 [EV-89785427, EV-0cc2c883]
- **Measurement cadence:** monthly (rolling 12mo)

METRIC-3: Install QA pass rate

- **Definition:** Percent of installs that pass post-install QA on first visit.
- **Target value:** 95 [EV-113bb33f, EV-72f1851e]
- **Measurement cadence:** weekly

METRIC-4: Churn (12-month)

- **Definition:** Percent of subscribers who cancel within 12 months.
- **Target value:** 10 [inference]
- **Measurement cadence:** monthly

17. Risks

RISK-1

- **Statement:** Promotional spending by large incumbents could compress pricing and force margin-sacrificing responses. [THEME-1, SWOT-T1]

- **Likelihood:** high [THEME-1]
- **Impact:** high [SWOT-T1]
- **Mitigation:** Use targeted, time-limited promos; emphasize non-price differentiators (local service, symmetric speeds) and monitor competitor promo triggers to avoid reactive across-the-board price cuts. [inference]

RISK-2

- **Statement:** Reputation risk from mixed installation reports could reduce conversion and referrals in local markets. [EV-72f1851e, EV-113bb33f]
- **Likelihood:** medium [EV-72f1851e]
- **Impact:** medium [THEME-4]
- **Mitigation:** Implement standardized install QA, rapid remediation guarantees, and publish local technician credentials and case studies to rebuild trust. [inference]

RISK-3

- **Statement:** Fixed wireless and other low-friction alternatives could convert near-term switchers who prioritize ease of install over peak performance. [THEME-3, EV-9c3ea513]
- **Likelihood:** medium [THEME-3]
- **Impact:** medium [SWOT-T1]
- **Mitigation:** Promote professional install benefits and short-term trial promotions; streamline self-install offerings for customers who prefer faster activation while offering upgrade paths to multi-gig. [inference]

18. Assumptions, unknowns and conflicts

Assumptions

ASM-1

- **Statement:** Where post-promo prices were not explicitly stated on provider pages, a reasonable post-promo monthly rate was inferred for blended-price calculation.
- **Rationale:** Some press/summary pages list promo or 'starting' prices but do not state the exact post-promo ongoing price; blending requires a post-promo figure to compute annualized cost.
- **Evidence ids:** EV-5159406a, EV-f536aad1

ASM-2

- **Statement:** Equipment (gateway/modem) monthly fees are treated as zero when provider pages explicitly state modem/gateway is included.
- **Rationale:** Provider pages (Spectrum, T-Mobile, Wire3) indicate included gateway or modem, so equipment monthly fees are set to 0 unless the site specifies otherwise.
- **Evidence ids:** EV-f536aad1, EV-33d161e7, EV-9c3ea513

Unknowns

UNK-1

- **Research question id:** RQ2
- **Description:** Exact post-promo (standard) monthly price for Spectrum Internet Premier in the specific markets referenced was not stated on the press/summary pages provided.
- **Reason unresolved:** Press material and summary pages cite promo prices and 'standard rates apply' but do not publish the post-promo dollar amount on the pages in evidence.

UNK-2

- **Research question id:** RQ2
- **Description:** Precise nationwide post-promo pricing terms and durations for AT&T fiber offers were not stated on the pages provided.
- **Reason unresolved:** AT&T marketing pages provide 'starting at' figures but do not specify the post-promotional price that applies after introductory periods for all markets in the evidence set.

Conflicts

CONF-1

- **Research question id:** RQ4
- **Evidence id a:** EV-72f1851e
- **Evidence id b:** EV-113bb33f
- **Description:** Community reports accuse Wire3 of installation damage and disruptions (EV-72f1851e) whereas company-hosted testimonials praise Wire3 installation and reliability (EV-113bb33f). These represent conflicting customer experience signals.
- **Resolution status:** unresolved

19. Follow-up research questions

FRQ-1

- **Question:** What is the exact post-promo (standard) monthly price for Spectrum Internet Premier in the specific target markets and how does it vary by ZIP?
- **Rationale:** Press and summary pages cited promotional prices but did not publish the post-promo dollar amount; precise post-promo figures are required to compute accurate blended first-year pricing and competitive positioning.
- **Related unknown ids:** UNK-1
- **Priority:** high

FRQ-2

- **Question:** What are AT&T's precise post-promo pricing terms and durations for fiber offers in the markets referenced (per-ZIP or per-market standard rates)?

- **Rationale:** AT&T pages list 'starting at' figures without consistently stating the post-promotional price across markets; knowing post-promo terms is needed to benchmark Wire3 pricing.
- **Related unknown ids:** UNK-2
- **Priority:** high
