

Wire3 Go-To-Market Plan

Run: run-20260924-140309 | Brief: W3-OCALA-20260924-01 | Generated: 2026-09-24 18:12 UTC | Sources cited: 46

Academic strategy exercise for the capstone: recommendations are illustrative and grounded in public evidence, not Wire3's actual go-to-market plan. How to read citations: bracketed EV- ids are sources (Appendix B, with links); THEME-, SWOT-, ASM- and UNK- ids are analyst findings (Appendix A); [inference] marks judgment with no direct source and [brief] marks a fact given in the project brief.

1. Executive summary

Target: Residential price/value switchers currently on a competitor in Ocala, FL / Marion County, FL.

Value proposition: Ocala's local 100% fiber delivering transparent pricing, predictable bills, and fast local support. [THEME-2, THEME-4, SWOT-S1]

Positioning: Wire3 positions as Ocala's local fiber alternative to national incumbents: premium reliability and local service at predictable, value-focused prices for households tired of promo cliffs or unreliable fixed-wireless. [inference; THEME-2, THEME-4, SWOT-S1]

The plan recommends 5 channels (Local paid search & geo-targeted social ads, Local SEO, content & review management, Local offline: community events, press & build signage, Partnerships: MVNO/mobile credits or local mobile reseller deals, Referral / neighbor discount program), 4 launch phases and 4 success metrics, and lists 3 risks and 4 follow-up research questions.

2. Research scope and evidence

17 planned research calls returned 467 evidence records retrieved 2026-09-24. Research questions:

- **RQ1:** What is each competitor's actual serviceable footprint and advertised speed tiers in Ocala/Marion County specifically?
- **RQ2:** What are current standalone and bundled pricing tiers, promo rates, and post-promo rates for each competitor?
- **RQ3:** What early-termination fees, equipment/rental fees, and other recurring surcharges does each competitor charge?
- **RQ4:** What documented triggers cause residential customers to switch ISPs (promo-cliff bill shock, reliability, customer service, moving)?
- **RQ5:** How much does a bundled mobile plan influence purchase decisions for price/value switchers specifically?
- **RQ6:** What do verified customer reviews/complaints say about each competitor's pain points, prioritizing Ocala/central-FL sources?
- **RQ7:** How have other regional fiber ISPs without a mobile bundle positioned and priced against national cable/wireless incumbents?

- **RQ8:** What marketing channels are effective and cost-appropriate for a low-brand-recognition regional ISP in a mid-size FL market?
- Evidence quality: 46 distinct sources are cited in the analysis (analyst: 2, community: 23, company: 21). 50% are primary, company or analyst sources against a target of 80% (not met).
- Numbers marked as evidence but not found in the cited text: 1.
- Themes whose research-question links were recomputed from their evidence: 4.
- Research-question coverage: every question with evidence is backed by at least 9 distinct cited source(s); the thinnest is RQ4.

3. Competitor comparison

Wire3

- **Footprint confirmed in region:** Yes [EV-e88eebc3, EV-ccdcff25]
- **Service type:** fiber [EV-e88eebc3, EV-ccdcff25]
- **Has mobile bundle available:** No [brief]
- **Top advertised speed mbps down:** 1000 [inference]
- **Top advertised speed mbps up:** 1000 [inference]
- **Summary note:** Wire 3 is a regional 100% fiber provider actively expanding in Central Florida, with press releases and site content documenting city-level launches and construction milestones; public materials emphasize full fiber builds and local support but do not publish a consistent per-market advertised speed in the supplied evidence excerpts. [EV-e88eebc3, EV-ccdcff25, EV-297cf0f1]

Spectrum

- **Footprint confirmed in region:** Yes [EV-56997533, EV-7603b4f7]
- **Service type:** cable [EV-7603b4f7, EV-5a451d29]
- **Has mobile bundle available:** Yes [EV-07620654, EV-56997533]
- **Top advertised speed mbps down:** 1000 [EV-d57959d5, EV-6184cfb9]
- **Top advertised speed mbps up:** 20 [EV-815dc4a9]
- **Summary note:** Spectrum (Charter) advertises consumer tiers from ~100 Mbps up to gigabit in Marion County, has launched gigabit service in Marion County, and offers mobile bundling (Spectrum Mobile). Pricing frequently uses one-year promotional pricing with standard rates after the promo period. [EV-56997533, EV-f536aad1, EV-07620654]

AT&T

- **Footprint confirmed in region:** Yes [EV-26834797, EV-3dbf67c5]
- **Service type:** fiber [EV-26834797, EV-9db23a03]
- **Has mobile bundle available:** Yes [EV-bc2c8589, EV-3dbf67c5]
- **Top advertised speed mbps down:** 5000 [EV-26834797, EV-6016b158]
- **Top advertised speed mbps up:** 5000 [EV-9db23a03]

- **Summary note:** AT&T markets fiber in Ocala and Marion County with symmetric multi-gig tiers (public listings cite up to multi-gig speeds) and sells wireless; converged bundles are a visible part of its positioning. [EV-26834797, EV-9db23a03, EV-bc2c8589]

T-Mobile Home Internet

- **Footprint confirmed in region:** Yes [EV-86ce9f72, EV-ee1b74c0]
- **Service type:** fixed_wireless [EV-3a643017, EV-7ece6301]
- **Has mobile bundle available:** Yes [EV-6e24a511, EV-944ad5f5]
- **Top advertised speed mbps down:** 498 [EV-0061cbdd, EV-fd61c724]
- **Top advertised speed mbps up:** 55 [EV-aa3dbe31]
- **Summary note:** T-Mobile Home Internet provides fixed-wireless home broadband (Rely/Amplified/All-In tiers), includes gateways, promotes a 5-year price guarantee and mobile bundle credits which can materially reduce effective monthly price; capacity/prioritization policies apply to very heavy users. [EV-3a643017, EV-0061cbdd, EV-3305d1d8]

4. Product and feature comparison

Wire3

- **Technology type:** fiber [EV-e88eebc3, EV-ccdcff25]
- **Symmetric speeds:** Yes [inference]
- **Data cap present:** No [inference]
- **Wifi router included:** Yes [inference]
- **Professional install included:** Yes [EV-297cf0f1]
- **Self install available:** No [inference]
- **Contract required:** No [EV-e210ffb3]
- **Contract length months:** n/a [EV-e210ffb3]
- **Customer support channels:** phone, local technicians, online support [EV-297cf0f1, EV-66124661]
- **Additional features:**
- **Name:** Local support emphasis
- **Field:** Wire 3 promotes local customer support and rapid local technician response [EV-297cf0f1, EV-e88eebc3]

Spectrum

- **Technology type:** cable [EV-7603b4f7, EV-5a451d29]
- **Symmetric speeds:** No [EV-7603b4f7]
- **Data cap present:** No [EV-58fa6c25]
- **Wifi router included:** Yes [EV-f536aad1]
- **Professional install included:** No [EV-58fa6c25]
- **Self install available:** Yes [EV-58fa6c25]
- **Contract required:** No [EV-58fa6c25]

- **Contract length months:** n/a [EV-58fa6c25]
- **Customer support channels:** phone, online account, in-store [EV-2774910c, EV-f236a618]
- **Additional features:**
- **Name:** Bundle offers
- **Field:** Spectrum bundles internet with TV and mobile (Spectrum Mobile) and provides access to streaming apps and TV app features [EV-07620654, EV-4c6c24d8]

AT&T

- **Technology type:** fiber [EV-26834797, EV-9db23a03]
- **Symmetric speeds:** Yes [EV-9db23a03, EV-6016b158]
- **Data cap present:** No [EV-3bbf649f, EV-3dbf67c5]
- **Wifi router included:** Yes [EV-3dbf67c5]
- **Professional install included:** No [inference]
- **Self install available:** Yes [inference]
- **Contract required:** No [EV-3dbf67c5]
- **Contract length months:** n/a [EV-3dbf67c5]
- **Customer support channels:** phone, stores, online account [EV-bc2c8589, EV-3dbf67c5]
- **Additional features:**
- **Name:** Symmetric multi-gig tiers
- **Field:** AT&T lists symmetric fiber tiers up to multi-gig (residential and business references present) [EV-9db23a03, EV-26834797]

T-Mobile Home Internet

- **Technology type:** fixed_wireless [EV-3a643017, EV-7ece6301]
- **Symmetric speeds:** No [EV-3a643017]
- **Data cap present:** No [EV-7ece6301, EV-3a643017]
- **Wifi router included:** Yes [EV-3a643017, EV-0d3027da]
- **Professional install included:** No [EV-3a643017, EV-24fd02cd]
- **Self install available:** Yes [EV-3a643017]
- **Contract required:** No [EV-24fd02cd, EV-3a643017]
- **Contract length months:** n/a [EV-24fd02cd]
- **Customer support channels:** online support, phone, community/forums [EV-3a643017, EV-944ad5f5]
- **Additional features:**
- **Name:** 5-year price guarantee
- **Field:** T-Mobile advertises a 5-year price guarantee on many Home Internet plans (exclusions apply) [EV-3a643017, EV-24fd02cd]

5. Pricing matrix

Spectrum: Spectrum Internet® Advantage (100 Mbps)

- **Plan name:** Spectrum Internet® Advantage (100 Mbps) [EV-f536aad1, EV-6184cfb9]
- **Speed mbps down:** 100 [EV-f536aad1]
- **Promo status:** has_promo [EV-f536aad1, EV-f236a618]
- **Promo price usd per month:** 30 [EV-f536aad1]
- **Promo duration months:** 12 [EV-f536aad1]
- **Post promo price usd per month:** n/a [EV-3a5d75ac]
- **Blended 12mo effective price usd:** 30.0 [EV-f536aad1] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

AT&T: AT&T Fiber (entry reference)

- **Plan name:** AT&T Fiber (entry reference) [EV-26834797, EV-6016b158]
- **Speed mbps down:** 5000 [EV-26834797]
- **Promo status:** no_promo_found [EV-26834797]
- **Promo price usd per month:** 35 [EV-26834797]
- **Promo duration months:** 0 [inference]
- **Post promo price usd per month:** 35 [EV-26834797]
- **Blended 12mo effective price usd:** 35.0 [EV-26834797] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

T-Mobile Home Internet: Rely Internet (promotional example)

- **Plan name:** Rely Internet (promotional example) [EV-0061cbdd, EV-6e87a945, EV-3a643017]
- **Speed mbps down:** 354 [EV-0061cbdd]
- **Promo status:** has_promo [EV-6e87a945, EV-0061cbdd]
- **Promo price usd per month:** 30 [EV-6e87a945]
- **Promo duration months:** 0 [inference]
- **Post promo price usd per month:** 50 [EV-0061cbdd]
- **Blended 12mo effective price usd:** 50.0 [EV-6e87a945, EV-0061cbdd] (computed: $((\text{promo_price} * \text{promo_duration_months}) + (\text{post_promo_price} * (12 - \text{promo_duration_months}))) / 12$)

6. Market themes

THEME-1: Incumbent cable footprint and bundle advantage

- **Description:** Cable incumbents (Spectrum/Charter) promote broad Marion County footprint, gigabit availability, and mobile bundling (Spectrum Mobile), creating a bundling barrier for regional entrants.

- **Related research questions:** RQ1
- **Competitors involved:** Spectrum, AT&T, T-Mobile Home Internet
- **Evidence:** EV-56997533, EV-f536aad1, EV-07620654

THEME-2: Regional-fiber expansion as an in-market alternative

- **Description:** Wire 3 is actively building 100% fiber networks in nearby Florida communities, positioning a local-fiber alternative focused on reliability and local support.
- **Related research questions:** RQ4
- **Competitors involved:** Wire3, Spectrum
- **Evidence:** EV-e88eebc3, EV-ccdcbf25, EV-9711e8d0

THEME-3: Fixed-wireless price-led disruption with service caveats

- **Description:** T-Mobile's fixed-wireless Home Internet offers low entry prices, gateway-included offers, and mobile bundle credits which lower effective price — but operational policies (e.g., heavy-user deprioritization) affect very high-usage households and can limit suitability for some users.
- **Related research questions:** RQ1, RQ2, RQ7
- **Competitors involved:** T-Mobile Home Internet, Spectrum, AT&T
- **Evidence:** EV-0061cbdd, EV-6e24a511, EV-3305d1d8

THEME-4: Billing/promo cliff and reliability drive churn

- **Description:** Two recurring triggers for residential switching evident in the evidence are (1) post-promo bill shock and opaque monthly fees; and (2) reliability/installation problems — both drive consumers to seek alternatives.
- **Related research questions:** RQ1, RQ2
- **Competitors involved:** Spectrum, T-Mobile Home Internet, AT&T
- **Evidence:** EV-3a5d75ac, EV-764b1863, EV-3a5d75ac

7. SWOT analysis

Strengths

- **SWOT-S1:** Wire 3 is deploying 100% fiber in Florida markets and emphasizes local support and rapid local technician response. [EV-e88eebc3, EV-297cf0f1]
- **SWOT-S2:** Spectrum offers broad Marion County coverage and bundled mobile/TV options that increase average revenue per household. [EV-56997533, EV-07620654]
- **SWOT-S3:** AT&T offers symmetric multi-gig fiber tiers where available, appealing to business and heavy-user segments. [EV-9db23a03, EV-26834797]
- **SWOT-S4:** T-Mobile Home Internet offers low entry pricing and included gateways plus a 5-year price guarantee which is attractive to price-sensitive customers. [EV-3a643017, EV-24fd02cd]

Weaknesses

- **SWOT-W1:** Wire 3 currently has a more limited footprint compared with national incumbents; builds are localized and ongoing. [EV-ccdcbf25, EV-297cf0f1]
- **SWOT-W2:** Spectrum's advertised promo pricing often reverts to higher standard rates, producing consumer bill-shock complaints. [EV-f536aad1, EV-3a5d75ac]
- **SWOT-W3:** AT&T's range of plan rules (tiered, hotspot caps in some business plans) can complicate offers for heavy mobile hotspot users. [EV-9f736c31]
- **SWOT-W4:** T-Mobile's fixed-wireless service can deprioritize very heavy users (1.2TB policy), creating reliability/performance concerns for high-demand households. [EV-3305d1d8]

Opportunities

- **SWOT-O1:** Localized 100% fiber builds (Wire 3) can win customers by marketing reliability & local response compared with national providers' call centers. [EV-e88eebc3, EV-297cf0f1]
- **SWOT-O2:** Mobile + broadband bundling remains a powerful value proposition among incumbents; partnerships or MVNO-style bundling could increase ARPU for regional ISPs. [EV-07620654, EV-6e24a511]
- **SWOT-O3:** Affordable low-tier broadband programs (Spectrum's Connect2Compete/StraightUp) indicate demand among price-sensitive households — targetable with simple, low-friction offers. [EV-98998810, EV-5a451d29]

Threats

- **SWOT-T1:** Large incumbents (Spectrum, AT&T) continue network investment and can bundle services aggressively to protect share. [EV-56997533, EV-26834797]
- **SWOT-T2:** Promotional churn and price-sensitivity raise the risk of customers switching after promo cliffs, driving aggressive promo strategies across competitors. [EV-f536aad1, EV-3a5d75ac]
- **SWOT-T3:** Fixed-wireless capacity limits and prioritization policies could be used in marketing to question FWA reliability vs. fiber. [EV-3305d1d8, EV-3a643017]

8. 7P market analysis

Product

- **Market description:** Market offers a mix of technologies: incumbent cable HFC with fiber-powered backhaul (Spectrum), large national fiber footprints (AT&T), regional 100% fiber builds (Wire 3), and fixed-wireless alternatives (T-Mobile Home Internet). [EV-7603b4f7, EV-26834797, EV-e88eebc3, EV-3a643017]
- **Wire3 relevant fact:** Wire 3's core product in evidence is 100% fiber-to-the-home in targeted Florida cities; company materials emphasize full fiber and local support. [EV-e88eebc3, EV-ccdcbf25]

Price

- **Market description:** Pricing is heterogeneous: cable promos for year-one (\$30–\$60) are common, AT&T fiber lists entry points (examples as low as \$35 in Ocala listings), and T-Mobile uses mobile bundle credits to reduce effective price. [EV-f536aad1, EV-26834797, EV-6e87a945, EV-0061cbdd]
- **Wire3 relevant fact:** Wire 3 public materials in the evidence set do not publish a standard consumer price; pricing for Wire 3 was not included in the supplied excerpts. [EV-e88eebc3, EV-ccdcff25]

Place

- **Market description:** Distribution aligns with network footprint: cable/fiber require physical drops/installation; fixed wireless requires cellular coverage and gateway delivery. Incumbents have wider retail/field operations; regional fiber competes city-by-city with visible construction activity. [EV-7603b4f7, EV-26834797, EV-3a643017]
- **Wire3 relevant fact:** Wire 3 is executing buildouts in targeted Florida municipalities with construction milestones and service launches documented in press posts. [EV-ccdcff25, EV-9711e8d0, EV-297cf0f1]

Promotion

- **Market description:** Promotions dominate acquisition: year-one pricing, monthly bill credits tied to mobile lines, gift card or virtual card sign-up offers, and bundled discounts are widely used across competitors. [EV-f536aad1, EV-6e87a945, EV-6e24a511]
- **Wire3 relevant fact:** Wire 3 marketing in the supplied evidence emphasizes reliability and local service rather than national-style promotional coupons. [EV-e88eebc3, EV-297cf0f1]

People

- **Market description:** Customer experience affects retention: national players emphasize scale and 24/7 contact centers; regional providers promote local teams and faster on-site resolution as differentiators. [EV-56997533, EV-297cf0f1, EV-3a5d75ac]
- **Wire3 relevant fact:** Wire 3 positions local personnel and 'neighbors not call centers' as a differentiator in public materials. [EV-297cf0f1, EV-e88eebc3]

Process

- **Market description:** Installation and provisioning realities differ: fiber often requires a drop and technician visit; fixed wireless commonly offers quick self-install gateway shipments and short trial periods. [EV-7603b4f7, EV-3a643017, EV-24fd02cd]
- **Wire3 relevant fact:** Wire 3 advertises professional installation scheduling and local technician dispatch in the evidence set. [EV-297cf0f1]

Physical evidence

- **Market description:** Physical evidence includes customer gateway devices, visible street fiber construction in build markets, retail presence for large brands, and local advertising/press showing build milestones. [EV-3a643017, EV-ccdcbf25, EV-4b556634]
- **Wire3 relevant fact:** Wire 3 shows local build photos, press posts and customer testimonials on its site documenting construction and service activations. [EV-ccdcbf25, EV-37184440, EV-103bb1ac]

9. Ideal customer profiles

ICP-1: Price/value switcher (Spectrum promo cliff victims)

- **Description:** Households currently on incumbent cable promos (Spectrum) who face post-promo bill increases and are actively seeking lower, more transparent monthly bills without sacrificing reliability. [THEME-4, SWOT-W2]
- **Current provider:** Spectrum [THEME-1, THEME-4]
- **Demographic signals:**
- Likely suburban families or multi-person households with cable TV/mobile bundles today [inference; THEME-1, SWOT-O3]

ICP-2: Price-sensitive fixed-wireless switchers

- **Description:** Price-sensitive households using fixed-wireless (T-Mobile Home Internet) attracted by low entry price or mobile credits but concerned about deprioritization and variable performance. [THEME-3, SWOT-W4]
- **Current provider:** T-Mobile Home Internet [THEME-3]
- **Demographic signals:**
- Price-sensitive renters and households without high simultaneous-device demands [inference; SWOT-O3, THEME-3]

ICP-3: Value-seeking heavy users (work-from-home / streaming)

- **Description:** Households that prioritize reliability and symmetric speeds (remote workers, streamers, small-business at home) but are sensitive to total monthly cost and seek predictable bills. [inference; THEME-2, THEME-4]
- **Current provider:** AT&T, Spectrum, T-Mobile Home Internet [THEME-2, THEME-1, THEME-3]
- **Demographic signals:**
- Professionals working from home, households with multiple video/IoT devices [inference; THEME-2, SWOT-S3]

10. Customer pains and desired outcomes

PAIN-1

- **Pain statement:** Post-promo bill shock and opaque recurring fees leading to churn or search for alternatives. [THEME-4, SWOT-W2]
- **Desired outcome:** A clear, predictable monthly price with no surprise cliff after year-one promotions. [inference; THEME-4, SWOT-O3]
- **Related icp ids:** ICP-1, ICP-2, ICP-3
- **Severity:** high [THEME-4]

PAIN-2

- **Pain statement:** Unreliable throughput or deprioritization on fixed-wireless plans for very heavy users. [THEME-3, SWOT-W4]
- **Desired outcome:** Consistent, symmetric performance that supports work-from-home and multiple streaming devices. [inference; THEME-2, SWOT-S1]
- **Related icp ids:** ICP-2, ICP-3
- **Severity:** high [THEME-3]

PAIN-3

- **Pain statement:** Desire for local, fast on-site support rather than large call-center experiences. [THEME-2, SWOT-S1]
- **Desired outcome:** Rapid local technician response and a simpler, human customer experience. [SWOT-S1, THEME-2]
- **Related icp ids:** ICP-1, ICP-3
- **Severity:** medium [inference; SWOT-S1]

11. Value proposition

- **Headline:** Ocala's local 100% fiber delivering transparent pricing, predictable bills, and fast local support. [THEME-2, THEME-4, SWOT-S1]
- **Supporting points:**
 - 100% fiber-to-the-home with local technician response for reliable symmetric performance. [THEME-2, SWOT-S1]
 - Simple, predictable pricing to avoid post-promo bill shock (designed for price/value switchers). [inference; THEME-4, SWOT-O3]
 - Professional installation and local service teams to shorten repair/installation windows. [SWOT-S1, EV-297cf0f1]
- **No bundle gap response:** Address mobile-bundling disadvantage by (a) transparent total-cost comparisons, (b) simple cross-sell partnerships or credits with local/mobile partners, and (c) emphasizing net monthly bill benefits from predictable broadband pricing. [inference; ASM-1, SWOT-O2, THEME-1]

- **Low brand recognition response:** Counter limited brand awareness with visible local proof points (construction photos, customer testimonials), referral incentives, and targeted local digital ads that highlight reliability and predictable pricing. [inference; SWOT-W1, THEME-2]

12. Positioning and differentiation

- **Positioning statement:** Wire3 positions as Ocala's local fiber alternative to national incumbents: premium reliability and local service at predictable, value-focused prices for households tired of promo cliffs or unreliable fixed-wireless. [inference; THEME-2, THEME-4, SWOT-S1]
- **Differentiators:**
 - 100% fiber with symmetric speeds and professional installs. [THEME-2, EV-e88eebc3]
 - Local technician teams and faster on-site response. [SWOT-S1, EV-297cf0f1]
 - Transparent pricing to prevent post-promo surprises. [inference; THEME-4]
- **Competitive frame:** Wire3, Spectrum, AT&T, T-Mobile Home Internet

13. Message pillars

PILLAR-1: Predictable pricing—no promo cliff

- **Supporting message:** Headline and creative that compares out-the-door monthly cost vs. common year-one promo structures to highlight predictable bills. [THEME-4, SWOT-W2]
- **Target icp ids:** ICP-1, ICP-2

PILLAR-2: Local reliability & fast technician response

- **Supporting message:** Stories and proof points showcasing local crews, faster on-site fixes, and community presence. [SWOT-S1, THEME-2]
- **Target icp ids:** ICP-3, ICP-1

PILLAR-3: Real fiber performance for heavy users

- **Supporting message:** Position symmetric speed and professional installation as the reliable choice vs. fixed-wireless deprioritization. [inference; THEME-3, SWOT-S3]
- **Target icp ids:** ICP-3, ICP-2

14. Recommended channels

CHANNEL-1: Local paid search & geo-targeted social ads

- **Channel category:** digital_paid
- **Budget tier:** medium

- **Rationale:** High-intent local search queries and targeted social creative reach price/value switchers at decision time; cost-effective for a regional rollout. [inference; THEME-4, THEME-2]
- **Target icp ids:** ICP-1, ICP-2

CHANNEL-2: Local SEO, content & review management

- **Channel category:** digital_organic
- **Budget tier:** low
- **Rationale:** Earned visibility for Ocala searches, amplify customer testimonials/build photos to counter low brand recognition and attract consideration. [inference; SWOT-W1, THEME-2]
- **Target icp ids:** ICP-1, ICP-3

CHANNEL-3: Local offline: community events, press & build signage

- **Channel category:** local_offline
- **Budget tier:** low
- **Rationale:** Visible local presence (construction signage, community sponsorships, local press) builds trust for a regional provider and demonstrates physical network investment. [THEME-2, SWOT-S1]
- **Target icp ids:** ICP-1, ICP-3

CHANNEL-4: Partnerships: MVNO/mobile credits or local mobile reseller deals

- **Channel category:** partnership
- **Budget tier:** medium
- **Rationale:** Partnerships or simple mobile-credit arrangements mitigate bundle disadvantage and make total monthly cost competitive vs. bundled incumbents. [inference; SWOT-O2, ASM-1]
- **Target icp ids:** ICP-1, ICP-2

CHANNEL-5: Referral / neighbor discount program

- **Channel category:** referral
- **Budget tier:** low
- **Rationale:** Referral incentives accelerate adoption in target neighborhoods and leverage local trust to overcome low brand recognition. [inference; SWOT-W1, THEME-2]
- **Target icp ids:** ICP-1, ICP-3

15. Launch phases and activities

PHASE-1: Local proof & awareness

- **Sequence order:** 1
- **Timeframe:** Weeks 0-6 pre-availability
- **Activities:**
 - Publish build photos, local press releases, and customer testimonials to establish credibility. [THEME-2, EV-ccdcbf25]
 - Set up local SEO and review channels; prepare targeted landing pages addressing promo-cliff comparisons. [inference; THEME-4, SWOT-W1]
- **Exit criteria:** Local awareness lift (press coverage + landing page traffic) and referral program set up.

PHASE-2: Targeted acquisition

- **Sequence order:** 2
- **Timeframe:** Launch month 1-3
- **Activities:**
 - Run geo-targeted paid search/social campaigns promoting predictable pricing and install windows. [inference; THEME-4, THEME-2]
 - Offer limited-time switcher incentives that compare net monthly cost vs. common incumbents' promo cliffs. [inference; THEME-4, SWOT-O3]
- **Exit criteria:** Achieve first-month new-subscriber target and maintain targeted CPA.

PHASE-3: Onboarding & service excellence

- **Sequence order:** 3
- **Timeframe:** Month 1-6 post-sale
- **Activities:**
 - Professional installation scheduling, proactive technician follow-up, and welcome communications emphasizing bill predictability. [EV-297cf0f1, THEME-2]
 - Capture early feedback and testimonials for review amplification. [inference; SWOT-S1, THEME-2]
- **Exit criteria:** High first-30-day satisfaction and published local testimonials.

PHASE-4: Retention & referral scale

- **Sequence order:** 4
- **Timeframe:** Month 3-12
- **Activities:**
 - Deploy referral incentives, loyalty pricing guarantees, and partner mobile-credit pilots. [inference; SWOT-O2, ASM-1]
 - Monitor billing clarity and proactively communicate before any price changes. [inference; THEME-4]

- **Exit criteria:** Repeat-customer rate and referral growth meet targets; churn from promo-cliff switching declines.

16. Success metrics

METRIC-1: Monthly net new subscribers (Ocala launch area)

- **Definition:** Net additions in the Ocala target area per calendar month.
- **Target value:** Target 1: Achieve steady monthly net additions consistent with a viable regional rollout (baseline to be set from internal capacity) [inference; THEME-2]
- **Measurement cadence:** monthly

METRIC-2: First-90-day customer satisfaction (CSAT)

- **Definition:** Average CSAT among new customers within 90 days post-install.
- **Target value:** Maintain CSAT $\geq 4.2/5$ among new installs [inference; SWOT-S1]
- **Measurement cadence:** monthly

METRIC-3: Promo-cliff churn rate

- **Definition:** Percentage of customers who churn within 3 months after promotional period ends (where applicable).
- **Target value:** Reduce promo-cliff churn vs. incumbents' typical signals (target: lower than local benchmark once available) [inference; THEME-4]
- **Measurement cadence:** quarterly

METRIC-4: Referral-driven signups

- **Definition:** Share of new subscribers acquired via referral or neighbor programs.
- **Target value:** Grow referral-driven signups to a meaningful share of new customers (goal: 15-25% over 12 months) [inference; SWOT-W1, THEME-2]
- **Measurement cadence:** monthly

17. Risks

RISK-1

- **Statement:** Incumbent bundle advantage and aggressive competitor promos could undercut Wire3's effective price position. [THEME-1, SWOT-T1]
- **Likelihood:** high [THEME-1]
- **Impact:** high [SWOT-T1]
- **Mitigation:** Pursue simple mobile partnerships or credits, run transparent total-cost comparisons, and emphasize non-price differentiators (local support, reliability). [inference; SWOT-O2, ASM-1]

RISK-2

- **Statement:** Promotional churn dynamics: customers attracted by low introductory offers may still switch away at promo end. [THEME-4, SWOT-T2]
- **Likelihood:** high [THEME-4]
- **Impact:** medium [SWOT-T2]
- **Mitigation:** Offer loyalty pricing guarantees for target tiers, clear communication before any price changes, and targeted retention offers timed before promo cliffs. [inference; THEME-4]

RISK-3

- **Statement:** Low local brand awareness limits initial conversion and raises acquisition cost. [SWOT-W1]
- **Likelihood:** medium [SWOT-W1]
- **Impact:** medium [inference; SWOT-W1]
- **Mitigation:** Prioritize local PR, customer testimonials, referral programs, and visible build/installation proof to build trust quickly. [inference; THEME-2, SWOT-S1]

18. Assumptions, unknowns and conflicts

Assumptions

ASM-1

- **Statement:** Wire 3 does not offer a bundled mobile product in the supplied evidence.
- **Rationale:** Wire 3 materials emphasize fiber and local support without any mention of a mobile offering in the provided excerpts.
- **Evidence ids:** EV-e88eebc3, EV-297cf0f1

ASM-2

- **Statement:** Spectrum commonly uses one-year promotional pricing on consumer internet plans.
- **Rationale:** Multiple Spectrum pages and analyst listings in the evidence reference one-year promo pricing followed by standard rates.
- **Evidence ids:** EV-f536aad1, EV-f236a618

Unknowns

UNK-1

- **Research question id:** RQ2
- **Description:** Wire 3 consumer pricing tiers, promo rates and post-promo rates for Ocala-area addresses are not present in the provided evidence.
- **Reason unresolved:** Wire 3 evidence (press releases, site pages) documents builds and service launches but does not publish consumer price tiers or promo/post-promo amounts in the supplied excerpts.

UNK-2

- **Research question id:** RQ2
- **Description:** Exact post-promo standard monthly amounts and explicit promo durations for certain Spectrum and T-Mobile promotions (beyond 'one year' or 'limited-time') are not fully enumerated in supplied evidence.
- **Reason unresolved:** Some pages state 'standard rates apply' or describe credits/discount mechanics but do not list definitive post-promo numeric rates or explicit promo length in months in the provided excerpts.

UNK-3

- **Research question id:** RQ1
- **Description:** Wire 3's specific per-market marketed maximum downstream/upstream Mbps for Ocala/Marion County addresses is not provided in the evidence set.
- **Reason unresolved:** Wire 3 public materials in the evidence set describe 100% fiber and qualitative performance claims but do not include a per-market advertised max speed figure in the supplied excerpts.

UNK-4

- **Research question id:** RQ3
- **Description:** Exact early-termination fees and recurring regulatory/municipal surcharges for each competitor at the Ocala address level are not consistently documented in the evidence.
- **Reason unresolved:** Provider pages often cite 'standard rates' or list general fee types but do not publish explicit ETF amounts and fee breakdowns for the sample area in the provided excerpts.

Conflicts

CONF-1

- **Research question id:** RQ1
- **Evidence id a:** EV-b8f310d0
- **Evidence id b:** EV-4fd7e8f6
- **Description:** Crowdsourced/local-page speed figures differ for T-Mobile and Verizon in Marion ZIPs (e.g., EV-b8f310d0 shows a T-Mobile sample download ~259.6 Mbps in ZIP 34473, while CoverageMap EV-4fd7e8f6 reports different median/aggregate speeds for Marion county overall).
- **Resolution status:** unresolved

CONF-2

- **Research question id:** RQ2
- **Evidence id a:** EV-f536aad1
- **Evidence id b:** EV-3a5d75ac
- **Description:** Spectrum's advertised low promo prices and third-party 'real bill' analyses differ on typical customer bills because adverts show promo rates while billing analyses document additional recurring charges and post-promo increases.
- **Resolution status:** unresolved

19. Follow-up research questions

FRQ-1

- **Question:** What are Wire 3's consumer pricing tiers, promotional rates, and post-promo standard monthly amounts for Ocala/Marion County addresses?
- **Rationale:** Analyst evidence set did not include Wire 3 consumer price tiers or promo/post-promo amounts; pricing is essential to craft competitive acquisition offers for price/value switchers.
- **Related unknown ids:** UNK-1
- **Priority:** high

FRQ-2

- **Question:** What are the explicit post-promo standard monthly amounts and promo durations for local Spectrum and T-Mobile offers at Ocala addresses to permit direct total-cost comparisons?
- **Rationale:** Incomplete public promo/post-promo numeric details in supplied evidence complicate accurate competitive pricing comparisons and claim substantiation.
- **Related unknown ids:** UNK-2
- **Priority:** high

FRQ-3

- **Question:** What per-market advertised maximum downstream/upstream speeds does Wire 3 market for Ocala/Marion County (specific Mbps tiers)?
- **Rationale:** Wire 3 materials describe 100% fiber qualitatively but do not list per-market advertised max speeds in the evidence, which is needed to match competitor technical claims.
- **Related unknown ids:** UNK-3
- **Priority:** medium

FRQ-4

- **Question:** What are the explicit early-termination fees and recurring regulatory/municipal surcharges for each competitor at Ocala address samples to ensure apples-to-apples pricing comparisons?
- **Rationale:** ETF and surcharge details are inconsistently documented in the evidence and can materially affect effective monthly cost and churn risk.
- **Related unknown ids:** UNK-4
- **Priority:** medium

Appendix A: Analyst findings referenced

- **[ASM-1]** Wire 3 does not offer a bundled mobile product in the supplied evidence. -- [EV-e88eebc3] [EV-297cf0f1]
- **[SWOT-O2]** Mobile + broadband bundling remains a powerful value proposition among incumbents; partnerships or MVNO-style bundling could increase ARPU for regional ISPs. -- [EV-07620654] [EV-6e24a511]
- **[SWOT-O3]** Affordable low-tier broadband programs (Spectrum's Connect2Compete/StraightUp) indicate demand among price-sensitive households — targetable with simple, low-friction offers. -- [EV-98998810] [EV-5a451d29]
- **[SWOT-S1]** Wire 3 is deploying 100% fiber in Florida markets and emphasizes local support and rapid local technician response. -- [EV-e88eebc3] [EV-297cf0f1]
- **[SWOT-S3]** AT&T offers symmetric multi-gig fiber tiers where available, appealing to business and heavy-user segments. -- [EV-9db23a03] [EV-26834797]
- **[SWOT-T1]** Large incumbents (Spectrum, AT&T) continue network investment and can bundle services aggressively to protect share. -- [EV-56997533] [EV-26834797]
- **[SWOT-T2]** Promotional churn and price-sensitivity raise the risk of customers switching after promo cliffs, driving aggressive promo strategies across competitors. -- [EV-f536aad1] [EV-3a5d75ac]
- **[SWOT-W1]** Wire 3 currently has a more limited footprint compared with national incumbents; builds are localized and ongoing. -- [EV-ccdcbf25] [EV-297cf0f1]
- **[SWOT-W2]** Spectrum's advertised promo pricing often reverts to higher standard rates, producing consumer bill-shock complaints. -- [EV-f536aad1] [EV-3a5d75ac]
- **[SWOT-W4]** T-Mobile's fixed-wireless service can deprioritize very heavy users (1.2TB policy), creating reliability/performance concerns for high-demand households. -- [EV-3305d1d8]
- **[THEME-1]** Incumbent cable footprint and bundle advantage -- [EV-56997533] [EV-f536aad1] [EV-07620654]
- **[THEME-2]** Regional-fiber expansion as an in-market alternative -- [EV-e88eebc3] [EV-ccdcbf25] [EV-9711e8d0]
- **[THEME-3]** Fixed-wireless price-led disruption with service caveats -- [EV-0061cbdd] [EV-6e24a511] [EV-3305d1d8]
- **[THEME-4]** Billing/promo cliff and reliability drive churn -- [EV-3a5d75ac] [EV-764b1863] [EV-3a5d75ac]
